SUMMARY

I'm naturally curious and often find myself wanting to understand how things work behind the scenes. I enjoy experimenting with ideas, building practical solutions, and occasionally spending more time debugging than expected, which usually ends up teaching me something new.

EDUCATION

SRKR Engineering College

2022 – 2026

B.Tech in Computer Science

CGPA: **9.2 / 10**

Honors Degree in Data Science

TECHNICAL SKILLS

Languages	Python, SQL, Java, C++, R
ML & AI	Machine Learning, Deep Learning, Transformers, BERT, LLMs, NLP
Data Tools	Pandas, NumPy, Matplotlib, Seaborn, Tableau, PySpark
Frameworks	Flask, Streamlit, REST APIs, HuggingFace, NLTK, spaCy
Tools	Git, GitHub, AWS (EC2, S3), Selenium
Soft Skills	Creativity, Problem Solving, Time Management, Communication

EXPERIENCE

AI Intern (Selected via Internshala)

Apr 2025 – Jun 2025

Alpha Creative Contest

- Selected through **Internshala** for the Alpha Creative Contest AI internship program.
- Contributed to the development of **Project Zepton**, supporting AI-driven application components and backend workflows.
- Managed internship deliverables alongside academic commitments including exams, project deadlines, and meetings.
- Collaborated with team members to integrate machine learning workflows into application features.

AI/ML/DS Intern

May 2024 – Jul 2024

IIDT BlackBucks

- Implemented and evaluated multiple **machine learning models** for predictive analysis.
- Improved model performance through preprocessing, feature tuning, and experimentation.
- Completed technical tests and assignments covering practical ML workflows.
- Awarded **Certificate of Excellence** for performance in internship assessments.

PROJECTS

FoodLens – OCR Based Food Safety Analyzer

- Developing a mobile AI system that scans packaged food ingredient labels and identifies **allergens and risky additives** that are difficult for consumers to interpret.
- Implemented an OCR-based ingredient extraction pipeline using **OpenCV** to detect and read label text from product images.
- Integrated ingredient verification with the **Open Food Facts API** to analyze ingredient metadata and flag potential health risks.

- Designed a cross-platform **React Native application** with **MongoDB** backend to store user profiles and allergy preferences.
- **Technologies:** React Native, Python, OpenCV, MongoDB, OCR, Open Food Facts API

HCP Campaign Prediction System

- Built a machine learning model to predict physician engagement in healthcare campaigns.
- Performed **data preprocessing, feature engineering, and model experimentation** achieving **92% accuracy**.
- Developed an interactive **Streamlit dashboard** enabling real-time predictions.
- **Technologies:** Python, Scikit-learn, XGBoost, Flask, Streamlit, SQL

Medical NLP Chatbot

- Developed an NLP chatbot for answering health-related queries using intent classification.
- Implemented tokenization, feature extraction, and classification achieving **88% accuracy**.
- Deployed the chatbot as a real-time web application using **Flask**.
- **Technologies:** Python, NLTK, spaCy, Scikit-learn, Flask

Survey Mail Generator (Generative AI)

- Built a generative AI system generating synthetic medical datasets and personalized survey emails.
- Automated survey outreach workflows reducing manual effort by **40%**.
- **Technologies:** Python, Generative AI, Flask, Pandas, Streamlit

Event Manager Website

- Developed a responsive website providing event services including makeup, photography, seating arrangements, and DJ booking.
- Designed interactive UI components and responsive layout.
- **Technologies:** HTML, CSS, JavaScript

CERTIFICATIONS

AWS Educate – Introduction to Generative AI

Google Cloud – Cloud Computing Foundations (Data, ML, AI)

Cisco Networking Academy – Python, C++

NPTEL – Data Science for Engineers, Cloud Computing, IoT & Edge Computing

Hexart – AI Foundations, Advanced AI Certification

ML Connect – Workshop Participation

ACHIEVEMENTS

GATE 2025 (Computer Science) – Top 13% rank

Semi-Finalist – Master Orator Championship (140+ participants)

1st Prize – District Essay Writing Competition

Winner – Anusandhan Science Fest

ADDITIONAL

Languages: English (Fluent), Telugu (Native), Hindi (Basic), German (Basic)

Interests: Singing, Reading, Creative Writing, Crafts
